

FUTURE SALES PREDICTION

A Project by Sreeneha

SUMMARY

- ▶ This project is a solution to the Kaggle predict future sales competition. I have used models like regression, XGboost and LightsGBM to predict the amount of sales of a certain product based on historic data.
- ▶ You can get the data from the competetions home page on Kaggle:
<https://www.kaggle.com/c/competitive-data-science-predict-future-sales/data>
